

Ideation Phase

Date	19 September 2022
Team ID	PNT2022TMID27497
Project Name	Skill and Job Recommender
Maximum Marks	4 Marks

Problem Statement

The present system required applicants to search through print and visual media for job opportunities. Applicants need to apply for jobs using conventional methods and appear for interviews at a specified location.

Recruiters need to advertise the vacancies and sort all applicant details, conduct selection procedures and complete the formalities. This approach is tedious and requires much effort. There is a need for an online job portal where applicants easily find jobs and employers can find suitable candidates for the job.
